Nearly 3,000 Passengers on Board and N. a Life Lost-First Cabin Passengers to Be Distributed to Cther Liners.

Cowes, England, Sept. 21. - The White Star line steamship Olympic in the world, was in collision with the Osborne bay, on the north side of the Isle of Wight, and was so severly damaged that her captain, E. J. Smith beached her on a mud bank in the Cowes roadstead. Later she was released and started back for Southham ton, where the monster liner was docked safely after 3 p. m

Immediately after the accident Captain Smith signaled for assistance to Portsmouth, where tugs were sent promptly. At the same time assur ance was given that the passenger were in no danger. The Hawke was damaged, but less seriously, and anchored close to the steamer until the Olympic, cleared of the mud bank, set out on her return to Southampton The Hawke then started south unde her own steam. The cruiser's bow were crumpled by the impact and her plate torn to the water line.

The Olympic sailed from South hampton at 11:25 o'clock, bound for New York by way of Cherbourg and

# ANSWER

One—the flat, sad, sickly looking one—was baked with poor baking powder; possibly the high-priced kind—possibly the cheap, big can kind. It denotes a lack of leavening gas, or an uneven distribution of same—or both. The other—the large, light, fluffy one-was prepared with Calumet Baking Powder, and denotes the never-failing, delicious baking that always results from its use.

Calumet does not cost as much as the high price baking powder, but it is very much superior in every way-it is purer-more reliable-more healthful. Here are the reasons:

All baking powders undergo a chemical change in the process of baking. You do not take it into the stomach in the same form as it is in the can. For example: When you use Cream of Tartar Baking Powder you get Rochelle Salts in your food, because the Cream of Tartar during this reaction turns into Rochelle Salts. This, as you know, is a drug, and should be taken only under doctor's orders.

Calumet is so carefully and scientifically prepared that the neutralization of the ingredients is absolutely perfect.

That it is absolutely pure and of highest quality is proven by the fact that
